

## Our Ocean, Our Responsibility

And it's one we don't take lightly. We are blessed to have the oceans, lakes and streams to swim and play in. But while we use these waterways for fun and adventure, they are home to thousands of diverse marine wildlife and a diverse culture of plant life. When our marine environment thrives, humans thrive.

So we are on a mission to keep our waterways healthy and to restore what we've destroyed - one day at a time.

## Why does it matter?

Beyond the obvious fact that these animals deserve better, our oceans directly impact jobs, tourism, and even our supply chain.

Our oceans also supply 50% of our oxygen and they store an abundance of carbon dioxide. The ocean regulate heat and affect our weather.

Having healthy oceans directly impacts our way of life. It only makes sense to keep them healthy!

## How can you help?

Tidal Wave donates 10% of every sale from our Save the Ocean collection to charities that work hard to fight to keep our oceans and marine life healthy. You can make a difference by shopping our Save the Ocean collection - and know that your money is going to a good cause!
